Thalgo's Ocean Memory....*

Thalgo, the leading brand in marine beauty and spa therapy technology has released its newest product Ocean Memory. In tribute to its core philosophy of gentle yet effective treatments inspired by the ocean.

In a day and age when many people live life in the fast lane, the Ocean Memory range has been designed to combat the stresses of everyday life using the revitalising properties found in the sea. The Ocean Memory Ritual Treatment and Home care products returns the skin, which is dull, dehydrated and devitalised to a state of well-being and vitality.

With 40 years experience in harnessing the riches and extraordinary potential of the ocean's extracts, Thalgo's Ocean Memory range uses the exclusive Thalgo ingredient, Primalg™, an age-old micro-algae renowned for its cellular energising and protecting properties which restore hydration, texture and vitality to skin.

The Ocean Memory treatment invites guests to dip into an aquatic voyage, beginning with an exfoliation featuring sea salt and algae that mimics the seabed. Relax with a relaxing tea meditation, then continue with a full massage, using essential oils and salt and choreographed to the ebb and flow of the sea, for deep relaxation. Finally, a mineral-enriched wrap featuring algae mousse is applied to the whole body. As the ocean elements penetrate the skin, toxins and other impurities are naturally expelled.
